Arch-frenemies, scheming faculty, an intergalactic orange kitty, and a flying horse are just a few things that come Linda's way. Will Supergirl even make it to graduation? Landry Q. Walker and Eric Jones explore how an ordinary girl from Krypton became the most extraordinary girl on Earth in a new edition collecting the six-issue miniseries!

How far would you go for revenge? If you were given a chance at deadly retribution with a guarantee that the law could not touch you, would you take it?

That's the opportunity that a man called Agent Graves provides, in the form of a special briefcase containing an untraceable gun and one hundred rounds of ammunition. To the damaged and downtrodden living on the fringes of society, the offer is a once-in-a-lifetime chance to even their scores. But beyond the dilemma of whether or not to pull the trigger lies a deeper and even more troubling concern: Just who is making these actions possible—and why?

This third of five volumes reprinting all 100 issues of writer Brian Azzarello and artist Eduardo Risso's *100 Bullets* collects issues #37-58 of their acclaimed Vertigo series and also includes never-before-seen character sketches by Risso for an unproduced *100 Bullets* video game.
